

## Writing a Museum Label

Museum labels help visitors learn about the artifacts that are on display. They answer important questions that the visitor might have about the artifact. Use the answers to these questions to write a museum label about your favorite artifact in the trunk: What is this artifact called? What is this artifact made out of? How was this artifact used on the frontier? Who would have used this artifact? Be sure to use complete sentences on your label.

Cut paper here and mount label on exhibit
